### Dios Exploration Inc. (DOS-V)

#### DIOS acquires the Pontax-North Lithium property in central Eeyou Istchee James Bay, Québec

- **Dios reported on January 19, 2023 that its has acquired the Pontax-North lithium property in the James Bay area.** The Pontax-North lithium property totals 40 wholly-owned claims for 2,300 ha. and is located north of Pontax River and some 23km south of KM381 facilities (see: <https://www.linkedin.com/pulse/genius-metals-inc-geni-v-provides-preliminary-ip-survey-eric-lemieux/>) and the James Bay/Cyr lithium deposit (40.3Mt @1.40%Li<sub>2</sub>O resource). The project is located as well ~6 km NW of the 3,613 ha Pontax-Lithium prospect (1.16% Li<sub>2</sub>O over 30.55m) of Striae Resources (<https://strialithium.com/stria-reports-positive-outcrop-mapping-and-sampling-results-from-pontax-north-and-pontax-central-targets-at-its-pontax-lithium-project-quebec/>) that is being drilled by Cygnus Gold (<https://www.cygnusgold.com/pontax-lithium-project>). The Pontax-Lithium (lithium-tantalum-bearing pegmatite dikes) were discovered and successfully drilled in the scope of former joint Dios/Sirios Resources exploration project.
- **James Bay, emerging lithium district:** The Pontax-North lithium project covers favourable rocks (paragneiss) along the margins of a 23 x 7km magnetic felsic pluton with a prospective section some ~11 km long. The Pontax-North claims are also located in the axis of SW-NE glacial movement and along a cluster of lithium metal lake sediment anomalies combined with useful other anomalous critical elements. The area has several magnetic features intersecting the general SW-NE magnetic trend. Field work is planned in 2023. Recall on October 20, 2022, Dios had announced that it has acquired the Nemiscau-North Lithium battery metal property totalling 164 wholly-owned claims for 9,274 ha along Pontax River, some ~15km north of Nemaska Cree village. We also highlight Azimut Exploration (AZM-V) has generated lithium projects in the Eeyou Istchee James Bay (<https://azimut-exploration.com/wp-content/uploads/2023/01/azimut-pr-20230123.pdf>) and several companies active in the area (<https://www.linkedin.com/pulse/harfang-exploration-inc-har-v-reports-results-its-pontax-eric-lemieux/>).
